SUMMARY

UX/UI Designer focused on product design and design systems. Designed UX/UI for three products: two AI-powered SaaS platforms and a mobile app (175+ screens, 26 user flows in total). Built design systems from scratch.

EXPERIENCE

UX/UI Designer | **Freelance** Jul 2026 – Oct 2026

Mobile walking app with activity tracking, audio content and chats.

- Designed end-to-end: wireframes, user flows, UI and a design system from scratch.
- 45+ screens and 7 user flows, including walk tracking, an audio player, quests and chats.

UX/UI Designer | **MW MEDIA Global** May 2025 – Dec 2025

- Designed and iterated on UX/UI for two AI-powered SaaS platforms (130+ screens, 19 user flows total): a recruitment ad generator, jobvisuals.ai, and an AI media generation tool.
- Built a Design System from scratch, adopted by the engineering team, covering components, variables, and Auto Layout across both products.
- Conducted competitive research and proposed UX improvements to refine flows and enhance usability.
- Performed design QA by reviewing live builds, documenting issues, and providing detailed feedback to ensure consistency with design.
- Delivered marketing landing pages with product walkthroughs, pricing, and feature highlights, plus logo design for both platforms.

UX/UI Designer | **Team Challenge (Multidisciplinary Team Project)** Jun 2023 – Aug 2024

- Served as the sole UX/UI designer in a cross-functional team of 6, designing an e-commerce platform for children's clothing from concept to handoff.
- Developed adaptive layouts, user flows, and interactive prototypes for both desktop and mobile.
- Presented the product to a real potential client, adapted the design to her existing brand and business requirements across multiple feedback sessions.
- Managed design tasks and collaborated with the team using Jira in a structured agile workflow.

Vector Artist | **Freelance** Jun 2018 – Aug 2024

- Created 350+ illustrations and achieved 60+ sales on Shutterstock.
